

# EDUCATION PROGRAMS

Balboa Park Cultural Partnership is committed to spreading knowledge and understanding of sustainability to Balboa Park team members and the community.

## FORMAL EDUCATION

**Professional Development:** We support professional development of Park staff in many ways, including helping Balboa Park team members receive Building Operators Certifications (BOC) and IFMA's Sustainability Facility Professional (SFP) certifications.

**Community Workshops:** Our program provides innovative and specialized training for Balboa Park staff, volunteers and the community about sustainability principles and practices.

**Green Impact Guide:** In partnership with San Diego State University, the Green Impact Guide was created to provide the Park's diverse arts, science, and cultural organizations a tool to successfully implement sustainability best practices.

## INFORMAL EDUCATION

**Facility Director Meetings:** Our monthly meetings drive education in energy efficiency and sustainability topics and provide aid with project implementation.

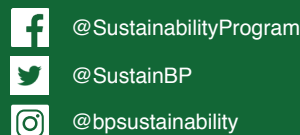

**Green Team:** Balboa Park Green Team meetings help to further Park employee and volunteer expertise in energy conservation and green business principles.

## SUSTAINABILITY EXPERIENCES

**Walk-About Tours** offer members of the community a behind-the-scenes look at the greening efforts of Balboa Park organizations. For more information, or to schedule a Walk-About, contact [sustainability@bpcp.org](mailto:sustainability@bpcp.org)
